

PESTGONE PEST REPELLER

~Battery Operated for Use Everywhere~

The **Pestgone Pest Repeller** is designed to repel mice, rats, roaches and most crawling insects in spacious area. It is perfect for warehouses, restaurants, food distributors and other similar large venue suffering from rat problems. Laboratory research has shown ultrasonic sound waves attack the auditory and nervous systems of most common pests causing them pain and discomfort. These high-intensity sound waves will let pests give up their source of food, water as well as shelter and move on. Most importantly, the advanced transducer module inside brings this product a high level of effectiveness.

The **Pestgone Pest Repeller** will not interfere with other electronic equipment. Do not harm humans and pets, either.

FEATURES

- **Spacious Places Required:** The ultrasonic sound emitted by **Pestgone Pest Repeller** can travel up to 1,700 square feet (160 square meters) in an open area. However, the sound will not penetrate solid barriers.
- **Test Button:** The test button behind the unit will lower the ultrasonic frequencies to an audible human level and allow you to hear. After power supplied, a red LED indicator light on the front of the unit will also light up, letting you know that it is functioning properly.
- **CDS Sensor:** It turns on automatically when the unit is in a dark area or the light in the room starts to fade.
- **Function Mode: Sens-** It works at night only.
 - Off** - It is turned off.
 - Cons** - It works continuously.
- **DC Jack:** Buying an optional AC adapter for long-term use.

SPECIFICATIONS

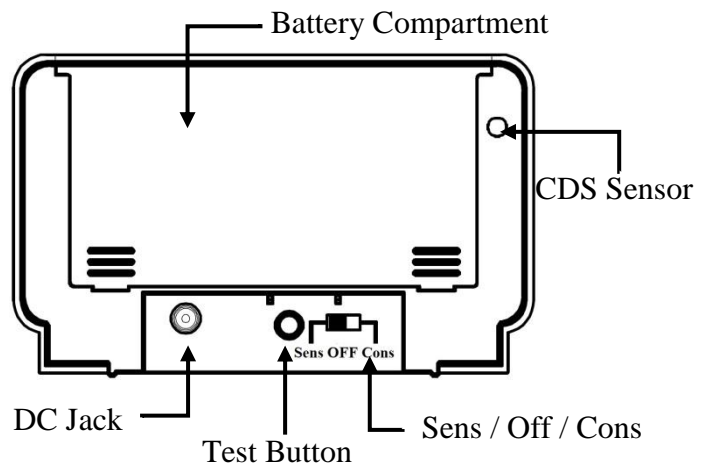

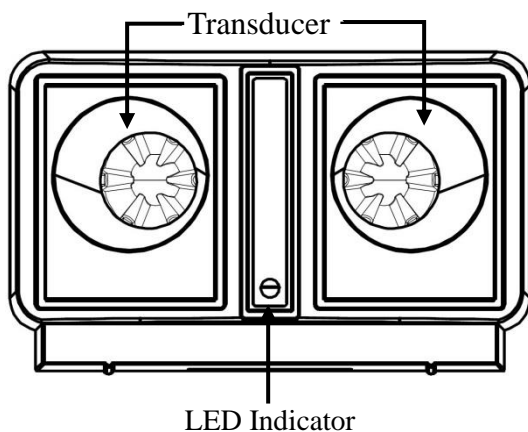

Frequency range: 20 - 32±2K Hz (Auto sweep)

Output sound pressure: >100±5 dB

Power supply: C size battery (1.5V) x 4pcs (Not included)

Dimensions: 140 x 90 x 85 mm

Weight: Approx. 243 g (Battery not included)

USAGE

Please place 4pcs of C size battery as power supply and gently switch to “**Sens**” or “**Cons**” function mode. For optimal coverage, set a unit in each room without anything blocking or covering the device or move its place per certain period of time. The **Pestgone Pest Repeller** is capable of getting rid of pests and preventing future invasion without using dangerous toxic chemicals, poisons or traps! It is normal to see a slight increase in the amount of pests during the first few weeks after installation. The pests are simply being flushed out of the walls and their hiding places, and will soon disappear altogether.

NOTICE

Do not place the **Pestgone Pest Repeller** behind solid obstructions like furniture or draperies. The rear of the unit should face outwards, instead of the corner of the room. Also, do not place it outside where it may get wet.
