

# Vacuator Pest Repeller

Caring For Your Loved Ones;  
Protecting Your Largest Investment!

## Triple Ultrasonic Speakers

It is specially designed with 2 of trusted ultrasonic sound wave speakers on either side. With double the speakers you get a more powerful ultrasonic protection for your home. It disrupts and irritates insects and pests from their habitat, which forces them to move away.

## Side Switches Option

The top switch lets you adjust the frequency

- 🔊) "High" for areas within 330m<sup>2</sup>
- 🔊) "Mid" for areas within 265m<sup>2</sup>
- 🔊) "Low" for areas within 200m<sup>2</sup>

The bottom switch lets you set the night light to either  "Off",  "Dim", or  "Bright".

## Insect Resistant Night Light

Insect vision is different from our vision. Insects are attracted to the UV spectrum of light. Conventional incandescent lights transmit light that is in the UV range, so bugs and insects are attracted to it. The Insect Resistant Night Light transmits almost no UV range light, therefore bugs and insects are not attracted to it.

## Test Button

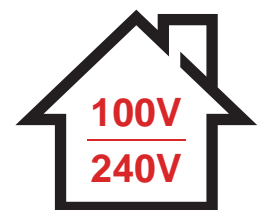

Pushing the test button will lower the ultrasonic frequencies to an audible human level and allow you to hear the different ultrasonic features.

## Universal Power Supply

The Triple Threat Pest Repeller supports AC power from both 100V and 240V, suitable to use for all of the world.

## Specifications

Frequency Range: 14KHz-40KHz  
Output Sound Pressure: >95dB  
Power Supply: 110V-120V/60Hz or 220V-240V/50Hz  
Effective Range: 330 sq. meter  
Dimensions: 8.6cm x 15.2cm x 36.5cm  
Weight: 170g
